

FIRST STEPS

0-3 YEARS

For parents with children from birth to 3 years old and couples planning to become parents. As early childhood is a time of rapid growth and development, it is the ideal time to foster the skills and virtues our children need to become resilient and responsible adults.

In this course, parents will learn the importance of play for relationships and growth, discover the role of temperaments in the behaviour of their children and explore the basic habits that can prime our kids for success.
